VET

## VOCATIONAL EDUCATION & TRAINING (VET)

### *HSC Course Assessment 2018-19*

Assessment in Vocational Education and Training (VET) courses occur throughout the 240 hour course (over two years). Assessment is primarily **competency-based**, using a range of assessment tools, such as questioning, observation, portfolios and structured activities to determine a student's competency against set industry standards. **Standards referenced** assessment is used to assess a student's understanding of the underpinning course knowledge and concepts. Such assessment typically occurs during the Preliminary and Trial HSC examinations.

Competency achievement will be reported on in the academic reports. Student competency achievement is also progressively recorded in teacher assessment registers and the NESA online portal, which provide for regular and systematic feedback on student performance.

Successful achievement of ALL course competencies will attain the student the AQF qualification. Successful achievement of some course competencies will attain the student a Statement of Attainment towards the AQF qualification.

In order to satisfactorily complete NESA requirements, students must undertake a **minimum of 70 hours structured work placement** over the 240 hour (2 year) course, with 35 hours to be completed in each year of study.

Students who meet specific benchmarks may apply for Recognition of Prior Learning (**RPL**) to have their qualifications/current work used to demonstrate completion of some competencies and/or to meet the mandatory work placement hour requirements.

The HSC examinable units of competency for each VET course are in bold print as listed on the following pages. The external HSC examination is optional, but during Year 12, students are required to complete a Trial HSC Examination tasks to ensure that an estimated mark can be submitted to NESA to safeguard against misadventure during the HSC examinations. Students will have the opportunity to finalise their intention towards the optional HSC examination in their VET course following the Trial HSC examinations in 2019.
